Doc-Trak

⮕ Go green and make paperless manufacturing a reality with Infor ERP SyteLine Doc-Trak.

Do business better.

The turbocharged pace of just-in-time manufacturing demands rapid, perfectly synchronized access to information. In a world of information overload, paper documentation adds delays, confusion, and errors to your work process. It also bloats your environmental footprint and raises the costs of storing and managing paper documentation. To further complicate matters, it restricts the flexibility you need in your manufacturing process to stay competitive. Worst of all, unnecessary paperwork robs you of the agility you need to respond to rapidly changing business conditions and seize new opportunities.

Leverage experience.

Infor™ ERP SyteLine represents the culmination of decades of manufacturing experience on the part of our global team of experts. Their years of manufacturing success are embodied in the comprehensive range of features that they've created for SyteLine to make it the ideal solution for making your business agile, competitive, and responsive to the rapidly evolving manufacturing marketplace. Doc-Trak adds the crucial information management connection that your company needs to work effectively every day.

(InFOR)™

Get business specific.

Best-in-class document management from Infor ERP SyteLine Doc-Trak streamlines your operations, saves time, and eliminates the annoyance of managing paperwork. You can manage nearly any file type with Doc-Trak, including CAD drawings, pictures, assembly instructions, brochures or customer paperwork. Infor ERP SyteLine Doc-Trak lets you link and view documents and other information directly from Infor ERP SyteLine. You won't miss rummaging through filing cabinets or searching your network for lost documents. As a result everyone has real-time access to the information they need to effectively make decisions and stay focused on the tasks that improve your business.

Easy to use and familiar to Infor ERP SyteLine users, Infor ERP SyteLine Doc-Trak is a flexible solution with a powerful range of features, including:

Linked documents—You can link documents in Infor ERP SyteLine Doc-Trak by specifying the location of the document in an ordinary web browser or file manager.

Automated, rules-based attachments—SyteLine Doc-Trak can intelligently link documents and folders. It also supports smart naming conventions and file structures.

Integration with Infor ERP SyteLine Labr-Trak—By integrating powerful document management capabilities with the unparalleled flexibility of Infor ERP SyteLine Labr-Trak manufacturing execution software, workers on your shop floor will have complete, real-time information about all assigned work. They can instantly view or print the documents they need to complete their work without ever leaving their workstation. With drawings, schedules, quality specifications, and manufacturing notes at every shop employee's fingertips, Infor ERP SyteLine Doc-Trak removes delays in creating and distributing paperwork and eliminates the confusion caused by having employees work from outdated versions of drawings or specifications.

See results now.

Successful manufacturers know that it's more important than ever to give everyone in the company rapid, unambiguous access to the latest information. You'll not only avoid wasting time, money, and materials, you'll reduce the massive amount of effort your people spend every day dealing with paper based documents. Also, with accurate, instant information your staff and your managers will make more informed decisions and keep your company competitive.

About Infor.

Infor acquires and develops functionally rich software backed by thousands of domain experts and then makes it better through continuous innovation, faster implementation options, global enablement, and flexible buying options. In a few short years, Infor has become the third largest provider of business software. For additional information, visit www.infor.com.
